

Some Chemicals present at the Dayton Project from 1943-1949

This list is only part of the chemicals at the Dayton Project. Additional chemicals will be added over time. Please contact EECAP for the documents which prove the chemicals were there. DOL will not accept this list as proof but should accept the chemicals with a copy of the original document.

	1943	1944	1945	1946	1947	1948	1949
Ammonium salt	Benzene	Aqua regia	Alumina	Aqua regia	aluminum chloride	TELLURIUM; TIN; TTA	
Chlorine	Boron Trifluoride	Chlorine	Alundum	Benzene	aqua regia	Hydrochloric acid	
Chloroform	Cellulose	Collodion	Benzene	Boron trifluoride	Bakelite	Hydrofluoric acid	
DAP	Ethyl Alcohol	DAP	Bismuth Nitrate	Bromine	Benzene	Lead	
Ethyl Alcohol	Fluorine	Fluorine	Bismuth trioxide	Bromobenzene	Beryllium	Mica	
Ferrous Sulfate	Hydrochloric Acid	Flux	Carbon dioxide	Chlorine	Bismuth chloride	Nitric acid	
graphite	Lead	Iodine	Carnauba wax	Cystine	Bismuth fluoride	Organic solvent	
Lead	Mercury	Lead	DAP	DAP	Bismuth metal	Sodium	
Magnesium Powder	Mica	Lexan	E Solvent	DPTA	Bismuth nitrate	Sulfur	
Mica	Nitrate	Lucite	Ethanol	E Solvent	Bismuth powder	Sulfuric acid	
Nitrate	Nitric Acid	MEK	Flux	Flux	Bromine	Tellurium	
PCB	Pyridine	Mercury	Graphite	Hydrazine	Buffer solution	Tin	
Potassium Chloride	Rochelle Salt	Mica	Helium	Hydrazine sulfate	Cadmium	TTA	
Potassium Pyrosulfate	Sulfur	nitrate	Hydrazine	Hydrobromic acid	Carbon dioxide		
Quinoliene	Sulfuric Acid	Nitric Acid	Hydrochloric Acid	Hydrochloric acid	Carbon tetrachloride		
Radium	Tin	Radium	Hydrofluoric Acid	Hydrogen peroxide	Chlorine		
Rhemium	TTA	Selenium	Iodic acid	Koroseal	Chlorine gas		
Selenium	Uranium	Silver	Iodine	Lacquer	Collodion		
Silica	Urea	Tellurium	Lead	Lead	Copper sulfate		
Silver		Thiourea	Lexan	Lithium fluoride	Chromium		
Sodium		Tin	Manganese dioxide	Methylene Blue	DAP		
Sodium Chloride		TTA	Mercury	Mica	diphenyl		
Sodium		Urea	Mica	Nitric acid	DPTA		

Phosphate			
Sodium Sulfite	Nitrate	Phenol	Drierite
Sulfur	Nitric Acid	Nitrate	E solvent
Sulfuric Acid	Phenol	Rubber	EDTA
TCE	Phenolphthalein	Saran	Fluorine
Tellurium	Phosphoric acid	Selenium	Formic acid
Thorium	Radium	Selenium dioxide	Flux
Tin	Selenium	Sodium	Helium
TTA	Silica	Sodium bisulfite	Hydrobromic acid
Uranium	Silver	Sodium selenate	Hydrochloric acid
Urea	Sodium	Styrene	Hydrofluoric acid
Vanadium	Stainless steel	Sulfur	Hydrongen bromide
	Sulfur	Sulfuric acid	Hydrogen peroxide
	Tellurium	Tellurium	Hydrogen chloride
	Tellurium oxide	Tin	Hydrogen sulfide
	Tham	TTA	Iodine
	Thiourea	Tygon	Kel F
	Tin	Urea	Lead
	TTA	Vandium	Lithium metal
	Uranium		Lucite
	Urea		Mercurous Sulfate
			Mercury
			Mica
			Nickel carbonyl
			Nitrate
			Nitric acid
			Nitrobenzene
			Perchloric acid
			Phenol
			Phenolphthalein
			Plutonium
			Potassium bromide
			Potassium permanganate

	R-solvent
	Rubber
	Saran
	Selenium
	Silica
	Silver
	Silver chloride
	Silver nitrate
	Sodium
	Sodium carbonate
	Sodium chloride
	Stainless steel
	Stannous chloride
	Stopcock grease
	Styrene
	Sulfamic acid
	Sulfur
	Sulfuric acid
	TCE
	Telluric acid
	Tellurium
	Thorium
	Tin
	Titanium
	trichloride
	TTA
	Urea
