	*Legend: All data contained in this spreadsheet relates to the PGDP in Piketon, OH.				
	The information in this spreadsheet is to be used to establish a contractual relationship between the listed contractors and the PGDP. The information was compiled from various documents, USEC, DOE, Security Clearance Cards, Union Affidavits, etc. The established dates were determined by the dates provided or by the earliest date to the termination date from the security clearance document. The termination date does not mean the contractual agreement ended, but only that the employee's clearance was terminated. Additional development is required if the claimed dates of employment are outside the established dates.				
	Name of contractor or subcontractor: Many contractors or subcontractors subcontracted with other employers. If this was indicated I listed them in both column 2 & 3.				
	Source of evidence: Indicates where the information was derived from				

	P-1, 2, etc... Page #'s are assigned to documentary evidence. Copies are numbered and available for evidence or review in the subcontractor binder at Deb's desk. Feel free to copy pages from the binder. Please do not remove original copies from the binder.
